-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### **DETAILED ACTION**

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed.

Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

### ***Election/Restrictions***

Applicant's election with traverse of Invention I in the reply filed on October 18, 2004 is acknowledged. The traversal is on the ground(s) that the two inventions have common functional and structural compatibility. This is not found persuasive because, although the purpose of the two inventions is similar and may be used together, significant and patentably distinct differences are recited in the claims.

The requirement is still deemed proper and is therefore made FINAL.

### ***Information Disclosure Statement***

The information disclosure statement filed March 2, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Specifically, the foreign references have not been provided.

### ***Drawings***

It is not clear if Figures A and B, filed in the response to the restriction requirement, are or are not intended to be part of the application. If these figures are intended to be part of the application, they should be labeled with numbers (Figures 19 and 20, for example) and brief and detailed descriptions must be added to the specification.

### ***Claim Objections***

Claim 1 is objected to because it must be in a single sentence form. In other words, each of the periods in the body of the claim must be replaced, by semicolons, for example.

Appropriate correction is required.

Claims 2 and 9 are objected to because the phrase "as per definition" is improper claim language. Further regarding claim 9, the reference to claim 4 in the last line is redundant, since the claim already depends from claim 4. Appropriate correction is required.

Claims 13 and 14 are objected to because the recitations of the terms "quasi flush" and "partial," respectively, are unclear. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitations of claims 3 and 5 contradict the recitations of parent claims 2 and 4, respectively.

***Allowable Subject Matter***

Claims 1, 2, 4, 6-9 and 11-15 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 703-308-3870. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
